3. CONSENT CALENDAR:

Councilmember Zuniga asked to comment on Item 3F.

3F- Mental Health Mobile Crisis Agreement

Councilmember Zuniga said she understood that the issue of a one to three-year contract was up for discussion. She asked if there were any other issues that might have caused a delay in finalizing the contract. She also asked if the payables were a flat rate or based on the number of clients served.

Police Chief Martin responded that staff had been in negotiations with the County of Santa Barbara with the hope that, with a one-year contract, they might be able to secure bedding at the old Marian Hospital thus a three-year contract would not be necessary. In addition, staff was asking the County for more data and did not feel a three-year contract was necessary at this time.

With regard to the payables, Chief Martin responded that the City would pay a flat fee that was not based on the number of clients due to the fact that the Mental Health Unit did not always have people available to respond.

Mayor Patino announced that Councilmember Boysen had given her prior authorization to nominate Kelly White O'Neill to the Planning Commission in his absence; therefore, she made the nomination.

On motion by Mayor Patino, seconded by Councilmember Orach, Kelly White O'Neill was appointed to the Planning Commission to fill an unexpired term ending in January 2019, and carried on the following vote: 4-0-1

AYES: Councilmembers Orach, Waterfield, Zuniga, and Mayor Patino
NOES: None
ABSENT: Councilmember Boysen
ABSTAIN: None

5. COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM FUNDING PROCESSES. The City Council considered changes recommended by the Block Grants Advisory Committee (BGAC) for the upcoming Community Development Block Grant (CDBG) Program funding processes.

Community Programs Manager Narez gave a report as detailed in the Council Agenda Report. Ms. Narez asked if anyone in the audience needed a translator as the City has a translator available with translation equipment at the back of the room. She also introduced members of the BGAC in the audience.

In May 2016, the U.S. Department of Housing and Urban Development (HUD) monitored the City's CDBG processes and said they were impressed with the program. However, they recommended changes that would help staff and the BGAC be more efficient in making allocations to both Public Services and Capital Projects. HUD also suggested limiting the number of Public Service grant allocations and increasing the minimum dollar amount of an allocation to \$10,000. Staff and the BGAC have come up with two additional recommendations. The first being to retain \$25,000 in Public Service allocations for the City Council and the second being to modify the allocation of Capital funds by instituting a required preliminary review from each applicant for consideration by Council.

Staff recommended that the BGAC set aside \$25,000 from the total available public service allocation so that Council may allocate directly. Each Councilmember would be provided \$5,000 and could either add to existing Public Service Grant Allocation(s) or combine with other Councilmember(s) to provide funding to an organization not already receiving an allocation at a minimum of \$10,000. This process would allow for Councilmembers to have more flexibility in the funding process and would keep allocations at \$10,000 or above.

Regarding Capital Projects, staff recommended that each agency submitting a Capital Project Application be required to submit a two-page preliminary proposal along with a one-page budget that would give staff the opportunity to evaluate a project prior to the agency going through the extensive application and bid process. Preliminary reports and staff recommendations would go to Council to prioritize the projects. Council's prioritized list would then be forwarded to the BGAC for action.

Councilmember Waterfield asked for more specifics regarding using the \$5,000 allocation as a Councilmember.

Community Programs Manager Narez responded that the CDBG deliberation meetings were always open to the public and she invited Councilmembers to attend three upcoming meetings to get an idea of where to apply their allocation. Staff also plans to present the outcome of deliberations to the City Council following the meeting so they could best choose where to put their funding. However, in order to meet the \$10,000 minimum for a project, two Councilmembers would need to combine their allocation should they chose to fund an agency outside the recommendations of the BGAC.

Councilmember Zuniga asked if staff anticipated that agencies that would not normally ask for a \$10,000 grant would now come in asking for that amount.

Community Programs Manager Narez responded that, currently, most applicants do ask for \$10,000 or more. Agencies who have received less than \$10,000 did not necessarily ask for that smaller amount, that is just what they had previously been allocated by the BGAC.

City Manager Haydon added that the Public Service recommended allocations for 2016-17 were listed in the staff report. In the past year, only two agencies had requested less than \$10,000.

Public input

There were no requests to speak.

Council discussion

Mayor Patino asked the BGAC Chair how the committee felt about the arrangement.

BGAC Chair Seifert responded that in the past, there has never been much flexibility once the Committee determined their allocations. This process would allow for more funding flexibility and more Council input.

Councilmember Orach stated he approved of the idea and thought the requirement of a preliminary proposal with a budget would be very helpful in determining which Capital Projects to fund.

Councilmember Waterfield agreed and indicated she thought it would be a good opportunity for the Council to experience what the Committee goes through with their decision-making process.

Councilmember Zuniga commented that she did not want people to perceive an agency as being disgruntled should they aggressively pursue funding. Agencies were simply advocating for their causes. She also stated she believed the \$10,000 minimum was a good idea and said she was excited about the opportunity to determine allocations as a Councilmember.

Mayor Patino requested that Council deliberate on each issue separately.

\$10,000 Minimum for Future Public Service Grants

There was general consensus by the Council that the \$10,000 minimum was a more efficient allocation, but that it was unfortunate that some agencies might not receive a grant at all under this new process.

Total Public Service Allocation Amount Reduction by \$25,000 (in order to provide each Councilmember with \$5,000 for allocation). There was general consensus by the Council to go forward with this recommendation.

Capital Projects Requirement for a Preliminary Proposal and Budget

Councilmember Zuniga asked how an agency could submit a budget for a Capital Project that had not gone out for bids.

Community Programs Manager Narez responded the preliminary proposal would be a rough estimate and that the process would allow the BGAC to determine if the agency qualified for HUD funding.

Councilmembers Orach and Waterfield stated they supported the recommendation.
