GENERAL NOTES

1. Workmanship and materials shall comply with city standard specifications for concrete structures.
2. Curing - Use approved curing compound.
3. Expansion joints - 3/8" full depth pre-molded asphaltic impregnated, evenly spaced, not over 30 apart, at all curb returns, driveway aprons, and existing work.
4. Finish - All edges, corners, and ends shall have 1/2" radius.
5. Compaction - Relative density of 90% under sidewalks, and 95% under curbs, gutters, and driveways.
7. See standard drawing RD-11 for curb and gutter and/or sidewalk.
8. Minimum 2' deep tooling curve at 9 driveway required if driveway throat is over 12' wide.
9. Edge of driveway shall be spaced a minimum of five feet (5') from any above-ground utility such as street lights, fire hydrants, meters, or utility vaults, and a minimum of ten feet (10') from any street trees.
10. Driveways on the same parcel shall be separated by a minimum of twenty feet (20).
11. Aggregate width of all driveways on the same parcel shall not exceed fifty (50) percent of the parcel's frontage along the street.
