

Make sure you are prepared with this Holiday Safety Checklist

Fires are at a greater risk during the holiday season. As you check off your shopping list, make sure your home is fire safe with this holiday checklist!

- Make sure live trees have adequate water and check often.
- Tree is three feet away from a heat source.
- Make sure tree safe lights are being used.
- Check lights and make sure they are not worn or broken.
- Check that decorations are flame resistant or flame retardant.
- Battery powered candles are used in place of real candles.
- If real candles are necessary, make sure they are placed away from other things that can burn (extinguish before leaving room).
- Make sure outlets are not overloaded with too many light strings.
- Have fireplaces and chimneys inspected.
- Test smoke alarms.
- Practice home escape plan.
- Make visitors aware of home escape plan.
- Make sure first aid kit is available and stocked.
