## REQUEST FOR PROPOSALS

---

### CITY OF SANTA MARIA INTERCHANGE PROJECTS

### ADDENDUM NO. 1

ITEM NO. 1 - IDENTIFIED AS ADDENDUM NO. - 1 - DATED 10/17/2022:  
REQUESTS FOR INFORMATION: Questions and Answers

**ISSUED ON OCTOBER 17, 2022**

---

Issuing Office:  
City of Santa Maria  
Public Works – Engineering Division  
110 S. Pine Street, Suite 101  
Santa Maria, CA 93458

*REQUESTS FOR INFORMATION: Questions and Answers*

1. Please clarify what items are to be included in Section F: Proposed Financial Details of Program as a cost proposal will be submitted once a successful firm is selected.

*ANSWER: The proposed financial details of the program specifically relate to the sealed cost estimate that will be submitted with the proposal. This will describe the tasks and costs required to complete the Project Study Report (PSR)*

2. RFP Page 9/2.1 Introduction: “Proposers for the interchange projects will provide individual proposals for each of the two interchange projects.” Can both of the interchange projects be included in one combined submittal document of five sets to the City? Or will two separate submittals of five sets each be needed for both interchanges?

*ANSWER: Yes, one combined submittal is acceptable. Two separate submittals will not required.*

3. On page 13 of the RFP document, there is a reference to Exhibit A and B (Consultant – Services to be provided), and Exhibit C (payment terms), but none have been included.

*ANSWER: Correct, this is the City’s standard Consultant Agreement. All of the Exhibits noted will be developed following the selection of a consultant.*

4. I just wanted to formally request an extension on the due date for the Santa Maria Interchanges RFP since the addendum has not been released yet. We would like to have the extra bit of time to properly address any questions/answers that are in the addendum.

*ANSWER: Granted. The due date for the proposal has been extended an additional two weeks to November 3, 2022 at 5 pm*

Regards,

**David Beas, P.E.**
