Principal Civil Engineer
City of Santa Maria
Public Works Department – Engineering Division
805-361-9291*

REQUESTS FOR INFORMATION: Questions and Answers

1. The RFP and Addendum No. 1 note to include sample plans (2 sheets maximum). As geotechnical engineers, our primary work product is a Geotechnical Report, can we include a sample Geotechnical Report in lieu of the sample plans? However, our reports can be a few dozen pages?

*ANSWER: A sample Geotechnical Report will be accepted in lieu of Sample Plans, or combination thereof, but the page limit is still limited to 2 sheets maximum, 11"x17" maximum size sheet. As addressed in Addendum No.1 these pages will **not** be counted as part of the 30-page limit and can be submitted as an Appendix.*

2. Please clarify if the staff individual resumes are to be included in the 30 individual page count?

ANSWER: Yes, the individual resumes will be counted toward the 30 individual page count.
